Stream Box S2 Ultra:

Roon Ready & Firmware Update 1.029

The Pro-Ject Stream Box S2 Ultra is now fully Roon Ready and certified, capable of streaming audio from your Roon system without any additional installation. Simply choose the Stream Box S2 as zone and start enjoying your music in bit-perfect streaming quality.

Roon is a rich and engaging way to browse, organize, and listen to music. Artist photos, credits, bios, reviews, lyrics, tour dates, and composers are located automatically, then interconnected to build a surfable digital magazine about your musical taste. It provides an unrivaled user experience that is made for music lovers. It offers best in class audio performance and seamless integration of local personal content with the 40 million track library of TIDAL and Qobuz.

The new Firmware 1.029 brings a whole range of improvements, including many optimisations and bug fixes for our TIDAL and QUOBUZ integrations, improving handling for the two biggest and most important lossless streaming services.

We also improved the handling of big media libraries from local network servers, network attached storages or USB inputs, making the Stream Box S2 Ultra less dependent on perfectly set up metadata.

There are many more new and exciting Stream Box S2 Ultra developments planned and already in the works, guaranteeing continued support and growth for Pro-Ject's latest generation of streaming hardware.

The history of Pro-Ject

Pro-Ject was founded in 1991, during the onslaught of the compact disc and CD players, with the mission to offer the best analogue experience for reasonable prices. In a time where the digital audio media had been on the rise, and vinyl was declared as outdated and dead, Heinz Lichtenegger kept his belief in the simple but best way to enjoy music – turntables.

Our aim is to get as many people as possible into the wonderful hobby that is HiFi audio and to deliver a real stereo experience for the lowest cost possible. The best way to start there is with a proper turntable. We want to give the customers back the right to choose what they need, without overblowing our products with unnecessary features.

Here at Pro-Ject we strive to create astonishing products with impeccable value. We only use the best components for the price and manufacture our handmade goods solely in Europe. With an eye for future trends we are always trying to fit the needs of the market.

Our passion and drive has been recognized by many acclaimed magazines. We have won multiple awards from the renowned HiFi press for our turntables and electronics over the years. Our products have also been used in countless TV shows and movies.

With cutting edge technologies and machines, we are able to create visually pleasing products without losing the eye for the finest details. We are closely working with partners of the music industry, such as Universal Music Group (The Beatles), Third Man Records (Jack White), The Rolling Stones, Parov Stelar or the world famous Hard Rock Café. Many industry leaders also cooperate with us, like the Vienna Philharmonic Orchestra or Ortofon for their jubilees. With these partners, we create special limited edition products to give our customers even more choices.
